

FNEI Collaborator Core Values:

- ★ Transparency
- ★ Thoughtfulness
- ★ Commitment

Opportunities for Collaboration

The COVID-19 Pandemic has greatly impacted FNEI projects. The our network and partners are all working hard to continue providing the support that so many need- through emergency PPE and food provision campaigns as well as regularly occurring programs.

Our interns and collaborators will support these efforts in order to accomplish our organizational goals, while simultaneously developing themselves professionally and personally as global citizens!

We are excited to utilize your unique strengths, through both independent and collaborative tasks.

We've identified **three key areas of focus**, along with some important objectives. As you will see, these areas of focus intersect in many ways.
