## Opportunities to support: Networking & Programs

- The Challenge: These challenging times need innovative ways to leverage technology and other resources to enhance programming, forge purposeful partnerships, and connect to our on the ground projects even without the ability to travel.
- The Goal: To think creatively about strengthening our network through collaborative programs, projects, advocacy, and education - especially in this virtual world.
  - Virtual interactive programming
  - Partnership building
- Example Projects:
  - Operationalize Salesforce and improve database management of trip alumni;
  - Plan and implement online events for fundraising, advocacy and networking;
  - In-country program development (new business) in collaboration with Fundraising team and grant-writers;
