

# FNE International

We are a non-profit organization (US 501(c)3) creating sustainable solutions to infrastructure, education, health services and food systems in Nicaragua, Peru, and the Dominican Republic.

## MISSION

We partner with communities in developing nations to identify opportunities to advance housing, health and education. By Facilitating collaboration and Networking with local and international organizations, we strive to seize those opportunities and Empower individuals to do the same as engaged members of their community and the world.

## OUR APPROACH

At FNEI, empowerment and fostering horizontal relationships with our partner communities lie at the core of our values. We hold integrity, respect, and solidarity in high regard, and our partnerships are built on the principles of mutual respect. We are committed to facilitating projects that prioritize empowering individuals, enabling them to take charge of their own growth and self-sustainability as the ultimate objective. Collaborating with organizations both domestically and abroad not only expands our network of dedicated volunteers but also sparks innovation and fresh perspectives.

## HUMANITARIAN TRIPS

FNEI provides exclusive humanitarian trips to Central and South America, tailor-made for college students. Emphasizing cultural exchange and solidarity, these trips revolve around fostering meaningful student-community partnerships and promoting education. During an FNEI trip, students actively engage in diverse activities, such as supporting the construction of homes, assisting educators in local schools, and actively participating in community meetings. We organize trips guided by specific goals that align with the passions and interests of the students.

## EXPERIENTIAL LEARNING

FNEI provides students with transformative opportunities to actively engage with social justice issues affecting communities worldwide.

Through immersive FNEI trips, students gain profound insights into systemic challenges while honing the essential skills needed to contribute to positive change. These experiences empower students to become agents of transformation and bring about meaningful impact in the world.
