

# Health

- **The challenge**

- Limited public healthcare funding leads to:
  - Insufficient staff, medical supplies, equipment, and drugs
  - Few-to-no services for special needs patients

- **The solution**

- Essential diagnostic testing, specialist consults, equipment and medication for about 120 special needs pediatric patients (focus on children affected by muscular dystrophy and Duchenne) *Salud para Todos los Niños (SPTLN)*
- Quarterly medical brigades
- Special Education support for children with special needs
- Accompaniment for local health posts

- Salud para Todos los Niños ("Health for All the Children")
- Special Education support
- Local health post support
